

## *LS-200™*

LS-200 is Amscomatic's self-contained, freestanding automatic long sleeve folder. This affordable high-speed unit requires minimal floor space and offers versatile features like sleeve fold width and product thickness adjustments to handle a variety of garment sizes. In fact, the LS-200 handles virtually all types of garments that presently run on Amscomatic folding equipment. The LS-200 was engineered to work directly with all new and most existing Amscomatic automatic folders, and can easily become part of an integrated automatic folding/bagging/sealing system.

Designed to bring superior uniformity and reliability to long sleeve folding, the LS-200 is engineered for dependable performance and low maintenance in demanding high-production environments. This high-speed unit precisely folds most long sleeve garments. User-friendly controls like programmable keypad entry simplify operation and the changeover of product fold sizes.

The LS-200 is made of heavy-duty steel and premium components for dependable, long-lasting performance and smooth, quiet operation. Like all Amscomatic products, the LS-200 automatic sleeve folder is built with Amscomatic's attention to quality, durability, and design excellence, and is backed by Amscomatic's unsurpassed service and support.

# LS-200

## Long Sleeve Folder
