Super Value

NuArc's Super Value Light Table is the perfect all-purpose solution for those looking for an economical, high quality viewing table. These Super Value models are so versatile and so affordably priced that you can place one wherever there's a need. They're great for tracing, opaquing, inspecting, and positioning overlays. An acrylic diffuser spreads soft fluorescent light evenly over the entire clear glass work surface to provide optimal viewing. The Super Value line comes in floor and tabletop models. Floor models have front and rear leg levelers on steel legs, and tabletop models have rear leg levelers and an adjustable tilt-top for maximum viewing comfort. Both feature a steel frame to provide maximum rigidity, and both can be easily wall-mounted. Floor models ship disassembled.

NuArc packs tremendous value into every Super Value Light Table. Like all NuArc equipment, they're built with NuArc's attention to quality, durability, and design excellence, and are backed by a one-year limited warranty and NuArc's award-winning service

SPECIFICATIONS

Model	Type	Lamps***	Glass Work Area	Footprint (DxW)	Electrical Requirements*	Shipping Weight
